## How to create an Orb Photograph

Keys to success:

1. Pick the right picture
2. Middle to outside/ outside to middle
3. Good subjects: Flowers, landscapes, random textures

Step 1:

1. Open picture in Photoshop
2. Crop to 1:1 Ratio
3. Click on check mark ✓

Step 2:

1. At top of screen, click on word "Filters"
2. In dropdown, click on "Distort"
3. Choose "Polar Coordinates"
4. In the pop-up box, click on BOTTOM choice: "Polar to Rectangular"
5. Click on check mark ✓

Step 3:

1. At top of screen, click on word "Image"
2. In dropdown, click on "Image Rotation"
3. Click on "Flip Canvas to Vertical:

#### Step 4:

1. Similar to step 2.
2. At top of screen, click on word “Filters”
3. In dropdown, click on “Distort”
4. Choose “Polar Coordinates”
5. In the pop-up box, click on **TOP** choice: “Rectangular to Polar”
4. Click on check mark ✓

#### And then:

1. Enjoy your results!
2. Note: In step 1, if you crop your picture into a rectangle, you get an oval “orb”.
